## Worst Spring Blizzard In Great Many Years

Snow drifts piled eight feet high in places, roads blocked and rural conditions turned upside down was the result of the worst blizzard that has struck this district for several years on Friday and Saturday last. In fact the wind and snow combined—such as was the case with this storm—is not remembered by the oldest inhabitants, although heavy falls of snow in May were not an unusual occurrence in the early days.

The storm commenced early on Friday morning with a vicious wind from the west, which gradually increased in velocity until in the afternoon it was blowing a 60-mile gale, and to make matters worse the sleet in the morning turned to snow in the afternoon, and the two elements combining their forces succeeded in making it unfit for man or beast to withstand until late Saturday afternoon, when the storm gradually abated.

It was not long before traffic of every kind became impossible because of the heavy drifts of snow which piled up in some places nearly ten feet high, so that cattle and horses in the open were in difficulties. The feeding of the animals also became acute because of the scarcity of feed, the live stock and dairy men having turned out their cattle to feed on pasture earlier than would have been the case had there been lots of feed in the country.

Business was completely tied up in town, only those who absolutely had to go the stores or attend pressing business making a venture at all, and it was almost impossible for a person to face the storm.

The whole province suffered severely from the storm, although the northern section suffered the most, as far as stock conditions were concerned. The south suffered to a certain extent, but it was a gain for them in a big way, too, because sections of the south had received very little moisture during the winter, and the heavy snow will give them a good start for their crops.

There will be some serious cattle losses in the north country in the vicinity of Olds and Red Deer, and all along the line to Edmonton, where the storm raged its fiercest. The C.P.R. had some difficulty with its freight trains, but by putting on double-headers on the passenger service late trains was the only trouble experienced.

The storm was entirely unexpected here, because the weather had been very mild for some time and seeding had been under way until it was nearly completed.

Telephone and telegraph lines all over the Province suffered to a great extent, but fortunately they were again put into condition to do business by Sunday night.

On Saturday evening the storm had abated and on Sunday it became warm again and the snow piles started to make miniature lakes and rivers all over the landscape.

Sunday morning presented an animated appearance on the residential streets in town, where in some places exits were completely blocked. Citizens were out in full force with shovels of any and every kind digging their way out to civilization and the comforts of social life, and many a joke was had at the expense

## Thirteen Reasons for Home Buying

- 1.—Because loyalty to a community by its men and women is the first essential to national patriotism.
- 2.—Because the interests of the home dealer and the home consumer are mutual; what hurts one must hurt the other.
- 3.—Because the home business man pays the biggest share of assessment rates and all public welfare donations. Whereas the foreign dealer contributes nothing and has absolutely no interest in your community other than the cash sales he takes out of it.
- 4.—Because prices of farm and town property and local markets go down to zero where there is no healthy, progressive, community trading.
- 5.—Because the fundamental law of commonwealth economy is to spend your money where you have earned it.
- 6.—Because your home business man is entitled to your cash. He stands behind the goods he sells, while you have no redress from being "stung" by outside dealers.
- 7.—Because spending your money away from home is like sowing grain in a stranger's field so that he may reap the harvest.
- 8.—Because when you drain your community by diverting legitimate channels of trade your also drain it of its young men and young womanhood of all energy and substance for development.
- 9.—Because the more money circulated in a community the more valuable property becomes, wages are higher and the better the general conditions that prevail. "In unity there is strength," and united home buying builds up a community bulwark that will weather the severest economic storms.
- 10.—Because it is a duty you owe yourself, to your family and to posterity to build up your community so that it has a wholesome atmosphere and is advancing with the times instead of drifting into the habits of sloth, ruin and decay.
- 11.—Because you must send cash in advance to the big city dealer and you have no opportunity to inspect the goods. Apart from the hundred and one good, sound reasons for home buying, it never pays to buy a pig in a bag or a suit of clothes in the dark.
- 12.—Because continued patronage of big-city catalogue concerns is a shortsighted, unprogressive, and in the long run, an economically suicidal practice.
- 13.—Because if misfortune overtakes you by sickness or out of work and the last dollar is gone, the local dealer will see you through your trouble. Will the big city store do this? He will not.

## Bad Breath IS CAUSED BY CATARRH

Canadians suffer more from Catarrh than from any other disease. On this account Catarrh is dangerous and should be checked at the outset.

It isn't necessary to take internal medicine to cure Catarrh. There is a far better method.

Doctors now treat Catarrh by sending a purifying, healing vapor through the breathing organs. In this way the germs of Catarrh are destroyed.

The only successful vapor treatment is **CATTARRHOZONE**, which the patient breathes through a special inhaler to the real seat of the trouble. The rich, piney essences of Catarrhozone heal and soothe all inflamed surfaces. They effectively treat the nose, throat and lungs with a powerful antiseptic that destroys irritation at once.

Cattarrhozone brings into the system the balmy air of the pine forest. It cures completely colds, coughs, catarrh, weak throat, and bronchitis.

Once tried, Cattarrhozone is always used. Nothing so pleasant, so simple, so quick to relieve, so absolutely sure to permanently cure. Accept no substitute. Large size lasts two months, and costs \$1.00; small size 50c; sample trial size 25c; at all dealers.

(Continued)

Since he had found his partner, he realized how wide, in a social sense, was the difference between Alice Featherstone and a small Canadian lumber dealer, and had, with characteristic determination, resolved to bridge the gap. This meant bold planning and strenuous effort, but he shrank from neither and meant his partner to help. Lawrence, who was resolute enough when things went against them, sometimes got slack when they were going well, and Foster understood that Lucy Stephen had money. For all that, if Lawrence was unwilling to keep pace with him, he must be dragged. Foster frowned as he put off matters that needed prompt attention until his return, and then sent a telegram and caught the next west bound train.

When he got down at the flag station his annoyance returned. If there was any ground for his being sent for, he ought to have been told, and if there was not, he had been caused a loss of time that could have been well employed. He resolved to tell Lawrence his views upon this as he took the road to the hotel but stopped with a beating heart when he entered the veranda.

Lawrence lounged negligently in a big chair and greeted him with a smile, but his father, Mrs. Featherstone and Alice sat close by, with Mrs. Stephen and Lucy in the background. It cost Foster something of an effort to preserve his calm but he advanced to Mrs. Featherstone, who gave him a look of quiet gratitude that repaid him for much. Featherstone welcomed him heartily, but with a touch of embarrassment, and then Foster thrilled as Alice gave him her hand. There was a curious quiet confidence in her level glance, as if she meant that she had known his promise would be kept. He did not remember what he said to Mrs. Stephen and Lucy, but was grateful to Lawrence, who laughed.

"I imagined you'd get something of a surprise, Jake. In fact, when the train stopped I pictured you coming up the road as fast as you could, divided between anxiety and a determination to tell me what you thought. Before that, when I got your curt telegram, I told Alice I could see you frowning as you filled up the form."

"I didn't know Miss Featherstone was here," Foster replied awkwardly. "That's obvious," Lawrence said, chuckling. "Candidly one of your virtues. But what about the rest of us?"

Foster, who wished he had been more tactful, thought his comrade's amusement might better have been restrained; but Lawrence resumed: "It must have been annoying to leave the mill when you had much to

do. The curious thing is that when you set off from the Crossing with me you declared you were tired of working for dollars."

"Mr. Foster's tiredness didn't prevent him working for his friends," Alice interposed.

"He must work, anyhow; that's the kind of man he is, and I don't suppose he was much disappointed when he got a strenuous holiday."

Then Featherstone turned to Foster. "I imagine we both dislike formal speeches and Lawrence, knowing this, means to smooth over our meeting. For all that, there's something to be said, and now, when the others are here, is the proper time. When we got your telegram in England I was overwhelmed by gratitude and regret. I saw, in fact, what a fool I had been." He paused with a gleam of amusement in his embarrassment. "Indeed, I'm not sure that the recognition of my folly wasn't the stronger feeling. Now I'm half ashamed to apologize for my ridiculous suspicions and must ask you to forget all about them if you can."

"They were very natural suspicions, sir. I couldn't logically blame you and honestly don't think I did."

"Well," said Featherstone, "it's some comfort to reflect that my wife and daughter knew you better. I'm glad to think you're generous, because there is no amend I can make commensurate with the service you have done us."

"In one sense, it was an excellent joke," Lawrence remarked. "While Jake was lurking in the bogs and putting up with much unpleasantness on my account, he was suspected of making away with me for the sake of an old travelling bag, which was all he could have got. But don't you think, sir, there was something characteristic about his telegram? I mean the brief statement of his success."

"My relief was so great that I did not criticize the wording, which I'm not sure I remember," Featherstone replied.

Lawrence glanced at his mother. "I expect you remember it?"

Mrs. Featherstone said nothing, but gave him a gentle, understanding smile.

Then Featherstone made Foster relate his last meeting with Daly on the train. Foster had no wish to harrow the listeners' feeling, but his memory was strangely vivid and he pictured the scene with unconscious dramatic power. They saw it all, as he had seen it; the background of flitting trees and glimmering snow, the struggle on the rocking platform, while the icy wind screamed past the car, and the dark figure filling, for a moment, the gap in the rails. Then they felt his thrill of horror when the gap was empty and Pete held up the torn necktie. Foster concluded with Pete's terse statement, "He just stepped back."

"Into the dark!" said Alice softly and there was silence for the next few moments.

"He made us suffer," Featherstone remarked. "But he had pluck and boldly took the best way. It is not for us to judge him now."

Then Lawrence leaned forward with a flushed face. "In the beginning, I made you suffer, and it might have been better if I had openly paid for my fault. We'll let that go; but there's something yet to be said." He stopped and looked at the others with badly suppressed emotion. "That I have escaped a fate like Daly's is due to the love and trust that was given me in spite of my offence, and my partner's unselfish loyalty."

Mrs. Featherstone looked at him with gentle approval and her husband said, "Lawrence has taken a very proper course; but I think this matter need not be spoken of again."

It was a relief to talk about something else, and by and by the party broke up. An hour or two later, Foster, who wanted to send his foreman some instructions, met Lucy in a passage as he was going to the writing room. She stopped him and said, "I haven't thanked you, Jake; you were careful not to give me an opportunity, but you have banished a haunting fear I couldn't get rid of. You know what I mean—Lawrence told me his story. Now he is safe."

She stopped Foster, who began to murmur something. "This is not all I want to say. I am not the only person who loves Lawrence and owes you much. Don't be too modest, urge your claim."

Foster, who would not pretend he did not understand, looked at her steadily. "If I made a claim on such grounds, I should deserve to have it refused."

"Then choose better grounds, Jake. I think they can be found," Lucy answered with a smile. "But show what you want. You can't expect to have it offered, for you to pick up."

She went away, leaving him in a thoughtful mood, though his heart beat. Lucy was clever and would not have given him such a hint unless she thought it was justified. Still, she might be mistaken and he feared to risk too much; then there were other difficulties—he was not rich. He went to the writing room, knitting his brows, and stopped abruptly when he found Alice there alone. She put aside a half-finished letter as if she did not want him to go away, and he advanced to the table and stood looking down at her.

## Y.M.C.A. Notes

### New Reconstruction Program

Association Needs \$1,100,000 to Carry On Work

The Young Men's Christian Association, of whose invaluable offices performed during the war, continued during demobilization, and to be continued indefinitely, thereafter on behalf of returned soldiers, it is superfluous to remind anyone, needs \$1,100,000 to be raised in a great Dominion campaign, May 5-9.

This campaign is promoted by the national council of Young Men's Christian Associations of Canada. The money will be spent in a new and extended program, which the "Y" plans to aid, in a carefully thought out way, the great after-war task of Canadian reconstruction. Heretofore, most of the Y.M.C.A. work has been done in the cities and towns; but in the new program there are three departments of rural work, taking in all the smaller towns, villages, hamlets and open country. In fact, one of the chief objectives of the campaign is to carry the Y.M.C.A. and its influence, which has always been exerted for good, to the hamlets and country places that have heretofore only been reached on rare occasions by the travelling secretaries.

Full financial support is needed to enable the association to prosecute with vigor and to successful issue its new program. The Y.M.C.A. is a body which necessarily and deservedly depends upon public contribution in money. None of the funds given it beyond bare and essential expenses are absorbed by the organization itself. Donations are administered in good works, ably systematized, eminently and permanently profitable, not only individually, but in the sum nationally.

The Young Men's Christian Association has striven in all its activities to be the ally of the Christian church. The essentially Christian idea of service permeates every branch of its work and ministers of all existing churches are its willing auxiliaries.

### Soldier Farming in Manitoba

400 Have Now Farms and are Working Them

Winnipeg, Man. — The office of the soldiers land settlement board in the Enderton Block is thronged with returned men all day long. The loans from the government to the soldiers amount to \$1,000,000 for the month of April. Loans up to \$4,500 on land, \$2,000 on implements, and \$1,000 on buildings are being granted to the men. Over 1,300 men have come before the qualification committee and 400 have now farms and are working them. If a man has no experience in farming, he can take a 12 weeks' course in the agricultural college and then he can spend two seasons working on the farm of some practical tiller of the soil.

### Greater Demand for Wool

Regina, Sask. — High prices for wool, mutton and lambs for some years to come, is prophesied by Professor W. H. J. Tisdale of the University of Saskatchewan. The professor believes that the price of wool this year will not fall below 45 or 50 cents per pound and may go even higher. Sir Arthur Goldlitch, one of the greatest living authorities on the sheep and wool situation, recently declared that the stock of wool in the world's markets would be less in 1920 than in 1919. He estimated a large increase in wool production, but still larger increases in the demand by consumers.

### Settlers for Peace River District

Edmonton, Alta. — The rush to the Peace River district has been started for this spring and summer. Supt. Wilson, of the immigration hall, says that for the last few weeks there has been an average of between 180 and 190 Americans and soldiers who have gone north. Some of these, he stated, went to Grand Prairie, and others farther north. This average does not include all that have gone north, Mr. Wilson stated, as many go and never call at the immigration hall. The greater majority of these people who are going north are Americans who have heard of the great possibilities in the Peace River district. Some of these people are going to take up land for farming, others are going in for mining, and others for speculation.

## PEERLESS PERFECTION

### FOR CANADA'S BROAD ACRES

Put up a fence that will last a lifetime—a fence that can't sag or break down—that will hold a wild horse—that won't rust or rot—that can't be run over by a heavy load. PLAIN-ROOF PRIZING Fencing is made of heavy Open Hearth Steel Wire with all the impurities burned out and all the strength and toughness left in. Heavily galvanized. Every intersection is locked together with the Peerless Lock. Still stay wires keep it rigid, making fewer posts necessary. Good for a lifetime. It's attractive, interesting, well worth the money. THE BAWWELL-ROCK WIRE FENCE CO., LTD. Winnipeg, Montreal, Hamilton, Ontario.

### War Prisoners

#### To Be Liberated

As Germany Contributes to Work of Reconstruction

Paris. — The council of five at its meeting, La Liberté says, agreed that the German war prisoners shall be liberated after the signing of the peace treaty. The prisoners will be released gradually as Germany contributes to the work of reconstruction exacted by the treaty and in proportion to this contribution.

The newspaper says that details concerning the future status of the Kiel canal have not yet been settled, but that an agreement has been reached on the principle of internationalization.

## MOTHER! YOUR CHILD IS CROSS, FEVERISH, FROM CONSTIPATION

If tongue is coated, breath bad, stomach sour, clean liver and bowels.

Give "California Syrup of Figs" at once—a teaspoonful today often saves a sick child tomorrow.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without gripping, and you have a well, playful child again.

Mothers can rest easily after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."

The bells in the choir often bring more young men to church than the bell in the steeple.

### To Have New Theatre

Red Deer, Alta. — A new grand theatre is being built at a cost of approximately \$30,000. It will have a seating capacity of 850, and will be available both for moving pictures and vaudeville.

## Cascarets Work While You Sleep

No headache, biliousness, upset stomach or constipation tomorrow

Spend 10 cents—feel grand! Tonight take Cascarets to loosen your liver and clean your bowels. Stop the headaches, bilious spells, sourness, gases, coated tongue, bad breath, salivosity and constipation—Take Cascarets and enjoy the nicest, gentlest "inside cleansing" you ever experienced. Wake up feeling fine. Cascarets is best cathartic for children. Taste like candy. No disappointment! Thirty million boxes of this harmless, famous cathartic are sold each year now.

India rubber was used for the first time as an eraser in 1770. It was, however, many years later before it was put into general use. Prior to this the crumb of bread was used for erasing purposes.

### "Black Watch" The Best Black Plug Chewing Tobacco on the Market

Things have reached the point now where anyone has to earn twice as much as he is worth in order to get half enough to live on.—Kingston.

An Oil That Is Prized Everywhere. —Dr. Thomas' Electric Oil was put upon the market without any flourish over thirty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this hemisphere. There is nothing equal to it.

### Arrange for Celebration

Edmonton, Alta. — A preliminary meeting has been held here to arrange to hold a stampede, fete, Mardi Gras, or any form of celebration, to last one week, in honor of the many men who have returned from overseas, or have left the locality to serve in his majesty's forces.

## CLEAN THE BLOOD

Taken from Nature — The wild roots and barks that go into the composition of one of the oldest and best known blood tonics are mostly gathered by the Indians on our reservations — brought or shipped to Dr. Pierce's Laboratory in Buffalo, N. Y. Over fifty years ago Dr. Pierce put up an alternative tonic without the use of alcohol that soon became known all over the world.

The spring is the time of the year we should put our house in order. We're run down after a hard winter — after grippé, colds, catarrh. It's time to take Dr. Pierce's Golden Medical Discovery, purely vegetable and free from alcohol or narcotics. It will search out impure and poisonous matter and drive it from the system. Buy it now in tablets or liquid.

It will clear the skin; eczema, pimples, rash, blotches will dry up and disappear; boils, carbuncles and other evidences of tainted blood will pass away, never to appear again.

Dr. Pierce discovered 50 years ago, that Nature has provided freely for these needs of her children and that in her laboratory were the remedies. Extracts of Queen's root, Stone root, Black Cherry-bark and Bloodroot, as prepared, combined and preserved without alcohol, in Dr. Pierce's Golden Medical Discovery, constitute the most effective and certain tonic, alterative and tissue-rebuilding remedy ever offered to the public.

### The "Why" In Trade Balance

"What does a trade balance mean?"

Many are today asking the question because their patriotism and their desire to share in national obligations were awakened and inspired through grand work in war time.

If one country bought or imported from another exactly the same amount of goods as it sold or exported to that country, there would be no so called "balance of trade." In common phrase they would be "quits." But it is hardly to be expected that this can come about; one must buy more than the other, one must sell more than the other. The difference between the two is the balance of trade. The country receiving most value, i.e., selling most goods or products, is said to have a favorable balance of trade; the country paying most for goods or products bought is said to have an unfavorable or adverse balance of trade.

Before the war, in 1913, Canada had with all countries an adverse balance of \$314,000,000. We bought that amount more than we exported. But owing to the immense munition and food orders which came to Canada as the result of the war, and for which European countries had to pay us, there was in 1917 a favorable balance in our national trade of \$557,000,000, i.e., we received that sum more than we spent on imports.

"If so, why should we worry?" some one might ask.

Because all those war orders have now ceased, and we must go back, perhaps in 1919-20, to our pre-war adverse balance of 1913 unless we can find something to take the place of those incoming war orders.

But not only are we faced with former deficits, our war-time commitments alone run over \$1,500,000,000, and the interest on loans necessitates imperatively that each year we have a favorable trade balance unthought of in 1913. And this solely and sheerly to pay our current debts.

To pay this greatly-grown debt it is not enough to go back to peace time. WE MUST GO BACK TO PEACE TRADE, BUT ON A WAR-TIME SCALE.

To do this we must place our factory and field production on a new and enlarged plane; we must adopt the most up-to-date methods; we must co-operate in a broad and enlightened policy; we must do a hundred things not conceived even a few months ago by the most far-seeing.

We must not have an "adverse balance of trade." Our factories must run for a full day's work for fifty-two weeks in the year; our farmers must continue to produce, as they did last year, the last possible ounce from their holdings; we must exploit our mineral and other resources to the utmost capacity of stamp mills and smelters.

Canada's prosperity depends upon a favorable balance of trade. We must either retain our war-time scale of exports or restrict our imports—or both, if we hope to retain in a time of peace the proud position won for Canada by the sacrifice of her men-in-arms.

## A tractor that will fit your farm—the Fordson

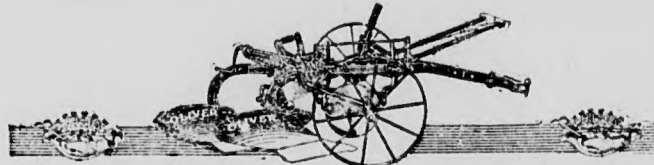

YOU can make your farm produce more—at less cost—and with less effort on your part—by using the Fordson tractor. Not only will it help you prepare your land and cultivate the crops, but it furnishes power for many other farm jobs.

The Fordson tractor is the result of long study of farming conditions and it has proved a success. Burns kerosene—easy to operate and care for—practically trouble-proof.

## There's an Oliver No. 7 Plow for your Fordson

Just as the Fordson tractor gives ideal power, the Oliver plow means ideal plowing. It is scientifically designed for tractor service—and is backed by a half century of experience in making plows. It buries all trash and weeds at the bottom of the furrow—maintains an even depth of furrow—and is controlled from the tractor seat.

(Farmers cut this out)

Careful Straining and proper Cooling of Milk in water at this time of year is very essential to guard against loss. Both Dairymen and Manufacturers take big chances of loss if the Milk is not cooled just as carefully during winter months as in the summer. Do not trust to weather conditions. The Milk will not cool in the centre of the can fast enough to prevent high acidity unless proper stirring is applied.

### The Future of the Small Town

Much is said and written these days about the small village or town and its future. In particular, attention is being devoted to present and future prospects of the town and village retail merchant in the face of the increasing competition afforded by the large retail houses in big cities. Many of these local merchants take a gloomy view, and are somewhat inclined to blame the farmers for lack of loyalty to those who, they claim, have extended credit and carried them over bad years, who buy their butter and eggs, and are ever ready to render them small services, whereas the city houses insist on cash in advance and render no local service to them whatever.

The future of the small town or village is inseparable from the prosperity of their retail merchants. If the retail merchant goes, it will not be long before the doctor, lawyer, banker, newspaper, hotelman, and others follow suit, and with the passing of the "local" centre the farmer would quickly discover he had sustained a loss, the value of which he had not fully appreciated until too late.

Like every other matter, there are two sides to this question, and it is in the interests of all that both sides should be studied. The local town and the local merchant have certain responsibilities towards the farmers of their district, and the farmers have a certain duty towards these towns. An effort should be made to determine what these duties are, and to discharge them.

First of all, the town should be made a real community centre and the necessary facilities provided to make it an attractive meeting place for the farmers of the surrounding district and their wives and families. Too frequently, it is to be feared, farmers are rather given the impression that all the town cares about them is the money they have to spend. On the other hand, the farmer is apt to compare the lower prices quoted by the city houses with the local merchant's prices without giving heed to anything else.

When the farmer buys from a city house he is compelled to pay cash in advance, nor has he the privilege of first inspecting the goods he purchases. When he buys from the local town merchant he thoroughly examines the goods in advance of purchase, and frequently buys on credit, and would even resent being asked to pay cash. Yet it is a well known fact that goods cannot be sold as cheaply on credit as for cash.

The local merchant is immediately at hand for every small purchase and in all emergencies; the city house is far away. The average farmer expects, and receives, accommodation from the local merchant when he needs it, and relies on him to take certain of his produce in exchange for goods, but he would never think of asking the city house for similar accommodation and assistance, and would not get it if he did ask for it.

This situation has existed for years, yet the farmer is educated to cash payment—to the city houses. Why, therefore, should the local merchant not adopt the same method, and, as one writer puts it, say: "Mr. Farmer, I've been on this spot serving you for years. I've given you many favors. But you make your most important purchases by mail—pay cash in advance. Now, surely, it is only fair that you pay me cash in advance also for the small purchases you now make here. Every time I pay cash the jobber gives me a discount of 2 to 5 per cent. Each year he allows me also 9 per cent. for prepayment of my bills. You pay me cash and I'll turn this advantage over to you. Both of us will be better off." And the discrepancy between city house prices and those of the local merchant would largely disappear.

The local town or village should do its part. It should identify itself more with the lives of the farmers upon whose trade it exists. It should provide an attractive rest room where the farmer's wife and babies can gather out of the cold, or wet, or hot sun for the hour or two they are in town. It should be equipped so that the mother can care for the children and tidy up and refresh herself after a long drive in the wind and dust, or wet and cold. It should have facilities where she can make a cup of tea or coffee, and some books or magazines to read. Farmers and their families should be welcomed and encouraged to take an active part in the social life of the town. In a word, the farmers and their families should be made to feel that they are welcome for themselves and quite apart from the money they have to spend.

The community aspect of the problem of the small town is easily the most important aspect. Were the city houses called upon to support every public enterprise in all the towns in which they sell goods as all the retailers do, and are expected to do, a considerable hole would be made in their profits, and their increased overhead expenses would result in increased selling prices. What the local merchant does for his community in these days should not be overlooked.

The more the city house is patronized, the more difficult it will be to build up a bright, attractive, prosperous local community; the more the town merchants are patronized, the better service they will be able to render, the greater variety and volume of stocks they can carry, the closer they can make their prices to

cause the overhead charges of conducting the store would be less in proportion to the volume of business done.

This is an age of co-operation, and farmer and town merchant should make it a practice to loyally co-operate the one with the other. Both have everything to gain and nothing to lose by such action.

### DISEASE COMES THROUGH THE BLOOD

To Cure Common Ailments the Blood Must be Made Rich and Red

Nearly all the common diseases that afflict mankind are caused by bad blood—weak, watery blood, poisoned by impurities. Bad blood is the cause of headaches and backaches, lumbago and rheumatism, debility and indigestion, neuralgia, sciatica and other nerve troubles. It is bad blood that causes disgusting skin diseases like eczema, and salt rheum, pimples and eruptions. The severity of the trouble indicates how impure the blood is, and it goes always from bad to worse unless steps are promptly taken to enrich and purify the blood. There is no use trying a different medicine for each disease, for they all come through the one trouble—bad blood. To cure any of these troubles you must get right down to the root of the trouble in the blood. That is just what Dr. Williams' Pink Pills do. They make new, rich, red blood. They simply purify and enrich the blood, and the disease disappears. That is why Dr. Williams' Pink Pills have cured thousands of cases after other medicines had failed. Here is proof of the power of Dr. Williams' Pink Pills to cure Mrs. M. Stills, who resides near the town of Napanee says: "I cannot praise Dr. Williams' Pink Pills too highly. I was very much run down in health, suffered from frequent spells of indigestion, biliousness, and sick headache. I had an almost constant pain in my head and my housework was a course of dread. In fact I felt so miserable that life held but little enjoyment. I was advised to try Dr. Williams' Pink Pills, which I did, and the result was simply marvellous, and can best be summed up by saying that they made me feel like a new woman, and fully restored my health. I would advise every woman and girl who has poor blood, or is run down in health, to give these wonderful pills a trial. I am never without them in the house." At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50, from the Dr. Williams' Medicine Co., Brockville, Ont.

### Fruit Prospects Excellent

Vancouver, B.C. — From all sections of the Okanagan and southern Similkameen valleys come reports of excellent fruit prospects for 1919. The setting of fruit buds this spring gives an indication of a gain in fruit production of about 50 per cent. over 1918, according to reports which have reached Fruit Inspector Hunter, Penticton. Providing that frost keeps away, and spring and early summer conditions are up to the mark, there is no reason why this year should not be by far the best in the history of the district, he says.

### It Works! Try It

Tells how to loosen a sore, tender corn so it lifts out without pain.

Good news spreads rapidly, and druggists here are kept busy dispensing freezone, the ether discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

Ask at any pharmacy for a quarter ounce of freezone, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.

### GIRLS! LEMON JUICE IS A SKIN WHITENER

How to make a creamy beauty lotion for a few cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

### Hoist German Flag

Colors Raised by Civilians in Defiance of Allies

Coblentz. — Enthusied by prospects of peace and newspaper reports that the German peace delegates had passed Cologne en route to Versailles, five Coblentz civilians hoisted German flags. The colors fluttered from their staffs only a short while, all having been taken down by the military police, excepting in one case, almost as soon as they appeared. A crowd of 200 soldiers on leave assembled in the street near a downtown building where a large German flag was flying, but a military policeman relieved the situation by hauling down the flag himself.

Gaining Weight

Use of the Great  
Food Cure

Sexsmith, Alta., May 13.—This is  
the cheering sort of letter that comes  
from people who have used Dr.  
Chase's Nerve Food. This treatment  
forms new, rich blood and rich blood  
builds up the depleted nerve cells  
until the thrill of new life and energy  
is felt in every organ and member of  
the human body.

Because Mr. Edwards was also  
having some trouble with the liver  
and kidneys he also used Dr.  
Chase's Kidney-Liver Pills to awaken  
the action of these filtering organs.  
The combined use of these medicines  
usually produces most excellent re-  
sults, even in the most complicated  
cases.

Mr. Stephen D. Edwards, Sex-  
smith, Alta., writes:

"My nervous system was all run  
down, and I also suffered with my  
liver and kidneys. I could not sleep  
at night, and got up in the morning  
feeling tired and unrefreshed. I used  
to feel as if I wanted to die. In read-  
ing Dr. Chase's Almanac I noticed  
the number of letters from people  
who had been benefited by the use  
of Dr. Chase's Nerve Food and Kid-  
ney-Liver Pills, so I commenced us-  
ing this combined treatment. It has  
done me a great deal of good, for I  
can now sleep well and do not have  
that horrid feeling I used to have in  
the mornings. I am gaining in weight  
and feel much better generally."

## Many Farmers Finish Seeding

Swift Current, Sask. — Great pro-  
gress has been made with seeding op-  
erations throughout the whole of the  
Swift Current district during the  
particularly fine cropping weather  
that has prevailed for the past ten  
days. Many farmers have completed  
their work and others are rapidly  
rushing theirs ahead. From the  
north and west districts come reports  
of immense areas successfully seed-  
ed, and in several instances the wheat  
is already above the ground.

worms are digested by the powders  
and are speedily evacuated with other  
refuse from the bowels. Soundness  
is imparted to the organs and the  
health of the child steadily improves.

Sickly Women  
Given Strength,  
Vigor, Spirits

Many of the woes of womanhood  
are due to kidney weakness.

At first the back aches.  
Then pains gather around the hips  
and lodge right in the small of the  
back.

To stoop or bend seems impossible.  
Headaches are constant.  
Unhappy existence. No pleasure  
in life when the body is overloaded  
with poisons that the sick kidneys  
can't filter out.

Bright's disease is the next stage,  
but it can be prevented by using Dr.  
Hamilton's Pills of Mandrake and  
Butternut. They cure sick kidneys  
and cure them permanently.

When the kidneys work properly  
pure blood is formed.

This means nourishment and  
strength for the whole body.  
Back aches and dragging pains are  
forgotten. Irregularities disappear,  
vital energy is restored, and happy,  
robust health is once more estab-  
lished.

Dr. Hamilton's Pills for women's  
ills is the slogan of thousands to-  
day.

Enormous benefit in many ways  
follow their use, and no woman or  
girl can use medicine that will do  
their general health more good.

For the sake of your kidneys, for  
the sake of your liver, for the ad-  
vancement of your general well-be-  
ing, you can't improve on Dr. Ham-  
ilton's Pills, 25c per box.

Are Averse to

London. — British naval circles do  
not favor patrolling the Atlantic in  
connection with the trans-Atlantic

the aircraft at sea, and the possibility  
of their deviating from their course

She Wants To Tell

The Great Relief She Found in  
Dodd's Kidney Pills

Mrs. Jones, of Alberta, After Two  
Years of Neuralgia, Headache and  
Rheumatism, Is Enthusiastic Over  
What Dodd's Kidney Pills Have  
Done for Her.

Clive, Alta., May 5th, (Special).—  
After two years of suffering from neu-  
ralgia, lumbago, and rheumatism,  
Mrs. Jones, a highly respected resi-  
dent here, is telling her friends that  
she owes her new lease of health to  
Dodd's Kidney Pills.

"I cannot recommend Dodd's Kid-  
ney Pills too much," Mrs. Jones  
states in her enthusiasm, "I would  
not use any other kind."

"I do not know the cause of my  
trouble, but I know it dragged along  
for two years—and in that time I  
suffered from cramps in my muscles,  
neuralgia, headache, and lumbago."

"My sleep was broken and unre-  
freshing. I had dark circles around  
my eyes and I was always tired and  
nervous. I was low spirited, my  
memory was failing, my limbs were  
heavy and my ankles swelled."

"I took six or seven boxes of  
Dodd's Kidney Pills and they did me  
so much good I feel like telling every-  
body about it."

All Mrs. Jones' troubles are symp-  
toms of kidney trouble. If you have  
any two of them ask your neighbors  
if Dodd's Kidney Pills will not help  
you.

HAD WEAK and  
FADING SPELLS

Those feelings of faintness, those  
weak, "all gone" sinking sensations,  
which come over some people from  
time to time, are warnings that must  
not go unheeded.

They mean an extremely weakened  
condition of the heart and a disor-  
dered nervous system.

When the system is in this condi-  
tion there is no time for delay. One  
fainting spell may be recovered from  
—will the next? One dizzy spell  
may pass off, but the next may be  
more serious.

Those who are wise will start tak-  
ing Milburn's Heart and Nerve Pills,  
before their case becomes deep-rooted  
and perhaps hopeless.

They will act directly on the dis-  
ordered heart and weakened nervous  
system and restore them to full

bled with fainting and weak spells, and  
I could never get any doctor's medi-  
cines to help me. One day a friend  
of mine was at the house when I  
took one of those spells, and she got  
me a box of Milburn's Heart and  
Nerve Pills. That was six years ago,  
and from that day to this I have never  
had any of those spells. I would

## Will Have Swimming Pool

Moose Jaw, Sask. — The city coun-  
cil will make an effort to secure the  
co-operation of the labor men in pro-  
viding a swimming pool for the boys  
and girls of the city. The scheme  
is for the city to give the site, the  
merchants to put up the money for  
the material and the labor men to do  
the construction work free of all  
charge.

A VALUABLE MEDICINE  
FOR THE BABY

Baby's Own Tablets are a valuable  
medicine for all little ones. They are  
a mild but thorough laxative which  
never fail to regulate the bowels and  
stomach; drive out constipation and  
indigestion; break up colds and sim-  
ple fevers; banish colic and worms,  
and make teething easy. Concerning  
them Mrs. S. P. Moulton, St. Stephen,  
N. B., writes:—"I have used Baby's  
Own Tablets for a long time and find  
them a most effective and valuable  
medicine. I would not be without  
them." The Tablets are sold by med-  
icine dealers or by mail at 25 cents a  
box from The Dr. Williams' Medicine  
Co., Brockville, Ont.

## Hon. C. W. Fisher Died on Monday

Hon. Chas. W. Fisher, Speaker of the Alberta Provincial Legislature since 1905, died just before midnight on Monday at the Royal Alexandra hospital, Edmonton.

Mr. Fisher filled his position at the provincial house at its last session up till nearly the end of March, when he became ill with ear trouble. He underwent an operation and for some time it was thought he might not recover, but he rallied and everything seemed to be going all right, when he suffered a sudden relapse and passed away as stated.

He was one of Alberta's most popular and well known residents, and won the respect of every member of the several assemblies over which he had presided.

Mr. Fisher was born in 1866 at Hyde Park Corners, Middlesex, Ont., and received his education at London, Ont. He came west nearly twenty years ago and was engaged in the merchandising business at Cochrane. He first entered politics in 1903 and was elected a member of the old Northwest Territories house for the Banff constituency, and in 1905 when the provinces were formed, he was again elected for the same constituency and was immediately elected as Speaker for the first Legislative Assembly, which position he held ever since.

## Y.M.C.A. at the Front

W. A. Buchanan, M.P. for Lethbridge, says: "I visited the Canadian front in July last (1918). I didn't have to enquire for the Y.M.C.A. and its huts. Close to the lines, back of the lines, at the bases, the Y.M.C.A. was in sight all the time. I couldn't get away from it at Paris, or Rouen, or Bar le Due or Verdun, and when I got back to England it was there, and in Scotland it was just as evident. I never heard a whimper against it, but when the Y.M.C.A. was mentioned to me it was with expressions of gratefulness. The Y.M.C.A. machine may have slipped a few cogs during the war, but so did all the war organizations, combative and non-combative. After personal observation of the work overseas, in the range of shot and shell and in the training areas, I would consider myself unappreciative if I did not tell you that I am a warmer admirer of the Y.M.C.A. today than I was a year ago. It did its bit, and did it wonderfully well."

## WORST SPRING BLIZZARD IN GREAT MANY YEARS

(Continued from page 1)

of some unfortunate being whose front entrance contained two or three tons of very wet snow which had to be shoveled out.

The snow will do an immense amount of good, but according to reports coming in several stock owners have lost a lot of cattle. A bunch of 500 head was brought up from the south country a day or two before the storm and were being driven west when the storm overtook them, with the result that at least sixty-five are dead. In the east country the Elliott ranch, Oldhams and Billy Coats, all lost from twenty-five to thirty head; but the roundup had not been completed on Monday afternoon, so that their total losses are not known as yet.

Meagre reports as to losses of stock are coming in, and it is stated that fully 300 head, including a large percentage of cows have succumbed between Calgary and Gleichen. Generally speaking the worst feature of the storm is that the small farmer has been hardest hit.

## \$20,000,000 Made Out of 5c. and 10c. Pieces

If a person were to say to the average young man of 25 years, "Young fellow, do you know that if you save your nickles and dimes, it is within your power to make \$20,000,000?" he would be considered a little off. But it has been done, and the late F. W. Woolworth did it.

When Woolworth was a young man he, at one time, earned only \$8.50 a week, kept a wife and child and saved \$50, which, added to \$250 he borrowed, bought his first stock of goods. In time he started his 5, 10 and 15 cent stores, and had about 1,070 of them when he died. He built the world's greatest office building, putting \$14,000,000 into it, and died reputedly worth another \$7,000,000 or \$8,000,000.

It is not possible for every youth to become a Woolworth; but if Canadian young men and women save 5 and 10 cent pieces and invest them in War Savings Stamps and Thrift Stamps they will lay the foundation of their own financial independence.

## ROSEBUD ITEMS

Wilmer Reist motored home from Big Valley on Monday last.

Mr. A. J. Person returned after a long search for his colt. The colt came home alone one Tuesday night.

A number of the farmers of this district had the misfortune to lose some stock in the big storm.

Mrs. Chas. Beatty, who had been very ill the past ten days, suffering from pneumonia, passed away on Saturday evening, about 9 o'clock. The family have the sympathy of the community, who have watched with aching hearts the struggle of the beloved wife and mother.

Come on, Jutland and Neapolis. Give us some news; it is getting scarce on this side.

A. S. Snyder's 18 year old son passed away Monday afternoon with scarlet fever.

(The following was received too late for last week's issue):

Mrs. C. C. Williams left for Edmonton on Saturday last, where she expects to stay a few months.

Misses Lucy Wilson and Reta Weigand returned home from Calgary last week. The report is they had a fine time.

Mrs. Sol. Weigand was a visitor at the Burgess home last week.

W. H. Ault and family and L. C. Ault and family, and A. J. Peron and family motored to Harnatton on Sunday.

Mrs. Charles Beatty has been very ill the past week. A nurse was called in Monday.

The night has been changed for the prayer meeting, which will be held at the home of Mr. and Mrs. Will Archer on Friday night.

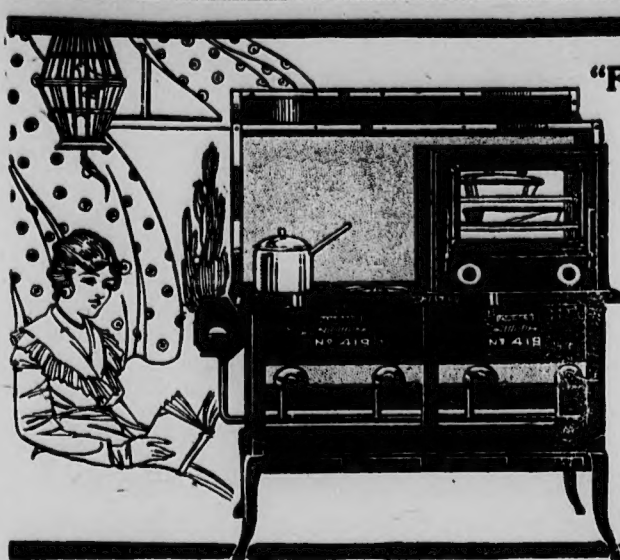

Mrs. Arden Deadrick has moved into her new home, and was assisted by Miss Ada Shantz. Mr. Deadrick is expected home soon.

The fine shower of rain was welcomed very much, although we did not get as much in this neighborhood as they did in town, as Chas. Hillebrecht said he got stuck in the mud the next morning coming home.

## Does a Farmer Need a Truck?

THE farmer with a Ford Truck practically lives next door to the market.

He has a choice of markets. He becomes more independent.

He can market his goods when and where he pleases.

He sells his crop to the very best advantage.

And his hauling costs him less—in labor and money.

It is not only cheaper to haul with a Ford Truck than with a team and wagon, it is quicker, it is easier work.

Consider the time and labor the farmer can save with a Ford Truck. With a team the trip to town takes the better part of a day.

A Ford Truck makes the same trip in two or three hours.

When labor is so scarce, what farmer can afford to waste day after day of his valuable time?

**Ford Trucks Complete  
with Body and Enclosed Cab**

Ford One-Ton Trucks are now supplied, if desired, with standard truck bodies in two types, the Stake Body and the Express Body.

In both standard bodies the cab may be supplied with or without doors as desired.

See these complete Ford Trucks. Consider the matter from every angle: the cost of feeding horses against the cost of running a Ford Truck; the time you lose on the road; the money you lose by being so far from the best markets. There is only one conclusion you can come to. You will have a Ford Truck.

# Hope That Italy May Be Pacified

Paris. — There is a slight rift in the Italian cloud, which gives hope of the clearing of the difficulties that have arisen in the peace conference over the Adriatic problem. Overtures for the resumption of relations have not come thus far from either direction, but there are intimations from Rome that overtures from Paris would not be unacceptable and would receive every attention.

The prevailing sentiment among the delegates is against soliciting a return of the Italian representatives and it was at first believed that President Wilson shared this opinion.

Those nearest the president, however, assert that if Italy is disposed to relinquish Fiume and accept the compromise the president suggested, he could doubtless, in the interest of harmony, make such friendly suggestions as would permit the resumption of negotiations by the Italians without any loss of dignity or self-esteem.

These personal susceptibilities are felt to be more of an obstacle at present than the territorial merits of the case.

Rome. — The Rome newspapers in commenting on Premier Orlando's speech before the parliament and the vote of confidence in his government in that body, declare that now that the Italian people and parliament have voiced their solidarity with the government, it remains only for the entente to revise its decision regarding the Adriatic. The view is taken that President Wilson appealed to the Italian people and now they have given their answer and it is bound to have its effect upon President Wilson's attitude.

The Corriere d'Italia sees in the demonstration in the chamber of deputies an indication that it is the will of Italy to help in bringing about prompt peace and that she is ready to make reasonable sacrifices to promote it.

The United States ambassador, Thomas Nelson Page, had a long interview on the situation with Premier Orlando and Foreign Minister Sonnino, after which he sent a long telegram to Paris, giving a full account of the point of view of the Italians and the Italian government.

The hope is expressed in government circles here that there will be an acknowledgement at Paris that full powers have been given by the premier and parliament of Italy to the delegation and also that a conciliatory solution of the Adriatic problem may be reached.

## Rev. Ben Spence Fined

Toronto. — Rev. Ben Spence, secretary of the Dominion Alliance, Ontario branch, was convicted by Magistrate Kingsford in the police court on charges of publishing banned literature, "The Parasite," and fined \$500, or four months at the jail farm.

W. E. Raney, K.C., counsel for the defense, at once intimated his intention of making an appeal and the magistrate allowed Mr. Spence a week to collect the money, if he decided to pay the fine.

## Press Censorship Over

Ottawa. — Press censorship under the direction of the press censor has ceased. The provisions of the war measures act and the orders in council and regulations made thereunder will still remain in effect, but responsibility for seeing that they are complied with will rest upon publishers, importers, distributors and persons having objectionable matter in their possession. All publications which have been placed under the censorship ban will continue to be forbidden circulation in Canada.

## Reds Defeated in Munich

Copenhagen. — The Soviet government in Munich has been overthrown, according to reports in Berlin, says the correspondent of the Berlingske Tidende.

The correspondent adds that government troops, in accordance with martial law, shot a number of members of the Red guard, who had been captured, while a mob attacked others of the captured Reds and tried to kill them.

W. N. U. 1262

## Albanian Revolt is Spreading

Rebels Have Force of Four Thousand Men

Saloniki. — The revolt in Albania against the Italian troops of occupation is spreading wider and wider, according to advices to the Greek newspaper Hellas. The commander of the rebels is said to have a force of 4,000 men.

Several hundred Albanians, it is added, have sent a message to the peace conference—denouncing Italian acts in Albania and affirming confidence in Essad Pasha.

Athens. — A proclamation has been issued in the Dodecanesus Islands by which it is declared that the islands have become united with Greece. Italy has laid claim to these islands, basing her sovereignty upon rights secured following the Turco-Italian war in 1911 and 1912.

## Will Not Wait for Italians

Conference Has Decided to Go Ahead With Treaty

Paris. — It is planned in peace conference circles to go ahead with the treaty of peace without regard to any action by Italy, as it is considered probable the Italian delegation will not return, certainly not within the week. The delivery of the treaty and the first exchanges with the Germans, therefore, will occur without the participation of Italy, and it is said that this procedure will go forward steadily up till the signing of the treaty. When the first reading with the Germans occurs the pact will be presented.

A day or two will be given for questions concerning interpretations of different phases of the convention, without, however, involving a prolonged discussion. The French view is that the German may ask for two weeks' delay to permit them to return to Weimar, with an additional week for discussion of the points presented after their return from the temporary German capital. This is a matter of conjecture, however, as there is no precise information as to Germany's intentions.

Reports from Berlin are somewhat contradictory concerning Germany's purposes, as some reports indicate that an early signing of the treaty is probable, while others say that it is doubtful whether the pact will be signed at all. These reports, coming from different sources, indicate a lack of concerted attitude as to the treaty and show there is disposition to leave the decision largely with the German plenipotentiaries who are now at Versailles.

## Belgians Ask Financial Aid

Paris. — The Belgians have asked the council of three for a first advance of two billion francs on their share of German indemnity, according to French circles, and it appears that they have received definite and satisfactory assurances.

It is reported that there may be a public plenary session of the conference to discuss the responsibility articles of the treaty.

## Conflicts in Bremen

Berlin. — Sanguinary conflicts have been numerous during the last few days in Bremen and the outlying districts due to Spartan uprisings that President Ebert has added to the existing martial law regime extraordinary military courts to try prisoners charged with insurrectionary crimes.

## Work for Returned Men

Melbourne. — A bi-state scheme of public works construction involving expenditure of nearly \$12,500,000 and offering ample employment to returned Anzacs has been approved by a joint commission from the states of Victoria and New South Wales, Australia.

## Editor Ordered Out

Bombay. — The governor of Bombay, with the sanction of the viceroy, has ordered that Horniman, editor of the Bombay Chronicle, who was associated with Gandhi in the passive resistance movement, leave India for England immediately.

## Japan Wins Out

Transfer of Shantung Peninsula To Japan Without Reserve Is Likely

Paris. — The agreement regarding the Shantung peninsula and Kiaochow, which has been reached between the council of three and the Japanese delegates, provides for their transfer without reserve to Japan, which voluntarily engages to hand the Shantung peninsula back to China.

"The Kiaochow settlement is a clear victory for Japan," says the Reuter correspondent. "The council of three, after hearing both Chinese and Japanese delegates, arrived at the conclusion that the Japanese demands must be satisfied. Japan receives free disposition of Kiaochow in accordance with her treaty with China in 1915."

It will be left to the Chinese and Japanese governments to agree upon the details of the carrying out of the treaty of 1915 and the agreements made in 1918.

## Few Unemployed In Old Country

Large Numbers Have Been Absorbed by Peace Industries

London. — In defending the government's policy of donation to the unemployed, Sir Robert Stevenson Horne, the minister of labor, in the house of commons said it was unnecessary to take a gloomy view of the unemployment question. Since the armistice, he said, four million persons have been demobilized from the army and naval forces and from civilian employment and one million remain unemployed. Eighty per cent. of the demobilized soldiers, fifty per cent. of the civilian males and forty-five per cent. of the civilian women, have been absorbed by the peace industries.

This, the minister added, was a remarkable achievement when it was remembered that the central empires and Russia, which before the war had taken one-fourth of the British exports, were still closed in trade, and that China, Japan and New Zealand, which used to take another quarter, were virtually cut off owing to the shipping difficulties.

## Japs Oppose Language Bill

Honolulu. — The foreign language school bill strongly opposed by Japanese, was tabled by the senate of the territorial legislature.

The foreign language school bill provides that to obtain certificates teachers must show a knowledge of the English language, U.S. history and U.S. civics.

Japanese editors and educators declared passage of this bill would force Japanese language schools to close. The Japanese recently adopted resolutions declaring further efforts would be made for "Americanization" and urging the bill not be passed.

## Fiume Wants to Be Annexed

Rome. — Further details of the meeting held in Fiume recently show that the national council of the Adriatic city notified Premier Orlando that all the political powers, state and municipal, had been placed in the hands of General Graziola, who was asked to exercise supreme authority in the name of King Victor Emmanuel. It was stated by this action, Fiume intended officially to weld its annexation to Italy.

## To Deport Germans

Melbourne. — The commonwealth of Australia plans to deport interned Germans, beginning late in May. The internees, for the most part Germans previously resident in Australia, crews of captured ships and prisoners transferred to the commonwealth from the east, will have the right of appearing before special magistrates and showing why they do not wish to be returned to Germany.

## Rumanians Advancing

Basle. — Hungarian communist troops have withdrawn east of Kazag, 85 miles southeast of Budapest before superior Rumanian forces, a Hungarian official statement from Budapest says. The Rumanians continue their advance down the river valleys leading to Budapest, east of that city.

# Plan To Launch League Next Fall

## Knighthood Will Be No More

Hereditary Titles in the Dominion Will Also Be Dealt With

Ottawa. — The discontinuance of the conferring of knighthoods on Canadians residing in Canada was decided upon by the special committee of the commons dealing with titles at a recent sitting. The matter of other distinctions will be considered at another meeting to be held this week.

The committee also concurred in the recommendation decided upon favoring the abolition of hereditary titles. A proposed amendment by Dr. Cowan, of Regina, favoring the establishment of an academy of merit was held over for discussion at the next meeting of the committee.

A. R. McMaster made the motion in favor of the discontinuance of titles.

W. F. Cockshutt in amendment, moved that the committee should find that while it did not favor the immediate discontinuance of titles, more discretion should be exercised in the granting of such honors by his majesty and his advisors in the future. The amendment was rejected on a vote of 20 to 3, and the McMaster motion declared carried.

Those who favored the amendment were Sir Herbert Ames, Dr. Michael Clark and the mover of the amendment.

The action of the committee applies only to knighthoods, both military and civilian. It means that if the recommendation is acted upon there will be no additional knighthoods granted for war service.

## Trial of Ex-Kaiser

London. — The Evening Standard claims that it has the highest authority for asserting that William Hohenzollern will be prosecuted and tried, not as originator of the war, but as one of the instigators of crimes, as provided in the report of the commission on war responsibility.

## Bombs in Mails

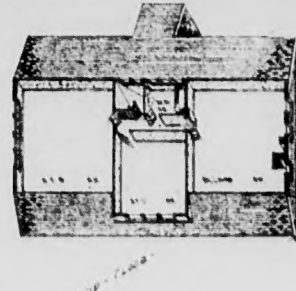

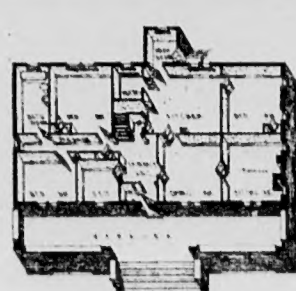

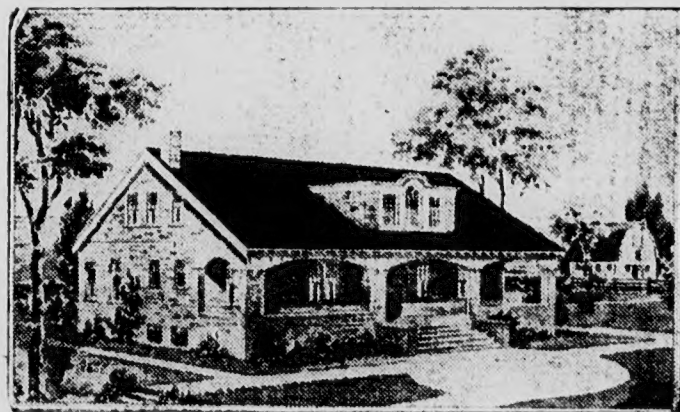

Washington. — Post office inspectors at New York city reported discovery of 17 infernal machines put into the mails, addressed to prominent officials, including cabinet officers.

## Held as Hostages

Copenhagen. — Hundreds of intellectuals are being arrested at Budapest, according to a Berlin dispatch to the Berlingske Tidende. It is reported that one of the people's commissaries has explained that they will be held as hostages and would "pay with their blood for every step the Rumanians take within the frontiers of Hungary."

Amsterdam. — The international socialist conference in session at Arnhem has passed a resolution that Palestine should be an independent state and should be admitted to the league of nations.

## A Complete Farm Home

This farm home is complete in every detail. It is designed to house the family and the hired help under the one roof, with separate conveniences for each. Attention may be drawn particularly to the two bathrooms. That feature of this attractive home will certainly have its appeal. The den shown on the left of the front entrance may very readily be used to advantage as an office by the present day business-like farmer.

The sitting room, with its open fireplace, and the billiard room spell rest and recreation. The beauty of the exterior of this bungalow style home deserves mention. The design has been worked up in brick or brick veneered exterior walls. The deep long verandah, approached by wide steps, is also worthy of note. Such details as a wash room, an amply large, lighted pantry, and a large kitchen have been taken care of by the architect.

### Canada Needs More Real Homes

Especially on her farms.  
Homes don't make money—not directly—while barns and hog houses do.  
Therefore, farm buildings have taken the attention, rather than homes.  
That may be all right for ordinary times, when supply is almost even with the demand, or ahead of it, so far as food products are concerned.  
But these are not ordinary times. Demand is so far ahead of supply that the farmer and his family, to produce to the limit, must have a suitable home.  
This means that more comfortable and convenient home life MUST be arranged for.  
New homes MUST be built.  
They must be roomy, sunny and modern.  
Such homes as are pictured in the Farm Building and Equipment Catalogues recently sent you.  
If you haven't received a copy of it, or do not soon, let us know; we want you to have it—it's free.  
Remember, that our plan service department includes the best and most practical men for this work that we can find.  
They know their business, from A to Z. They know how to take your ideas and work them out right and make a real home.  
Let them start on YOUR HOME.  
No charge for their service.

### Being an Editor

Most any man can be an editor. All the editor has to do is to sit at a desk six days a week, four weeks a month, and twelve months in a year, and edit such stuff as this:  
"Mrs. Jones of Cactus Creek let a canopener slip and cut herself in the pantry. Joe Doe climbed on the roof of his house last week looking for a leak and fell, landing on his back porch. While Harold Green was escorting Miss Violet Wise from the church social on Saturday night a savage dog attacked them and bit Mr. Green on the public square. Mr. Frang, while harnessing a broncho last Saturday, was kicked south of his own corn crib."

### A Suffrage Outbreak

Sylvia Pankhurst and Amelia Mahony, were arrested in London last week for attempting to force an entrance into the House of Commons in a May day demonstration, and ordered to give bonds for their good behavior. Neither would give bonds and were retained under detention.

Even if a tiny baby looks like a monkey you can't make its mother mad by saying that it looks like her.

### CARD OF THANKS

We desire to take this means of expressing our sincere appreciation and thanks to all the kind friends and neighbors who assisted us with their help and sympathy during the illness and at the recent death of our beloved wife and mother.

GEO. RYCKMAN AND FAMILY.

### Grand Lodge Officers Visit Didsbury

St. Hilda's Chapter of the Eastern Star received a visit from two Grand Lodge officers on Wednesday evening last, Mrs. C. Norton of Coaldale, Grand Matron of the Grand Chapter of Alberta, and Mrs. Langlitz of Stettler. The officers and members exemplified the work of the Chapter, and the Grand Matron expressed entire satisfaction with the proceedings. After the close of the Chapter those present sat down to a lunch and spent a social time. Mrs. H. Osmond, Worthy Patron of the local lodge, was assisted in the work by Past Worthy Matron W. Leadbitter of Bowden, who came down especially for the purpose.

### AROUND THE TOWN

Mayor J. M. Reed has been appointed a Notary Public for Didsbury.

W. Davies returned from his business trip to Eastern Canada on Tuesday.

Mr. T. White of Calgary, late of Spirit River, has accepted a position with A. G. Studer.

Mrs. Wood and Mrs. Phillipson will have charge of the Red Cross tea rooms on Friday afternoon.

Capt. (Dr.) and Mrs. A. J. Weart and children, of Calgary, were weekend visitors in town, leaving for home on Sunday.

Mrs. J. Davidson of Kinsella, Alta., and George and Lloyd Ryckman of Bellingham, Wash., came up to attend the funeral of their mother, Mrs. A. Ryckman, last week.

A government proclamation is announced in the Alberta Gazette that Sunday, May 25th, 1919, is to be observed as "Go to Sunday School Day," and another proclamation in the same issue of the Gazette announces that Friday, May 9th, is to be observed as Arbor Day all over the Province.

Mother's Day will be held by the Union Sunday school at the Presbyterian church on Sunday next at 11 a.m. All the parents and the congregation are especially invited to be present. A good programme will be given.

Watch for ad. in next week's Pioneer of auction sale of Emergency Hospital equipment, to be held on Saturday, May 17th, on the lot east of the English church. Parties having livestock, household effects, etc., for sale may list same with R. B. Martin until 12th inst., to be sold at the same time and place.

Miss Dora Acton, who has been bookkeeper for J. W. Berscht for the last five years, resigned her position this week and will be promoted to a higher one in the near future. Miss Acton intends leaving for her home in Saskatoon on Friday. She will be missed in both church and social circles in town, because of her sunny disposition and splendid vocal abilities. Her large number of friends wish her every success.

Rev. Jas. H. Bury, district superintendent of the Nazarene Church of Alberta, preached at the residence of C. D. Carver on Sunday, April 27th, fifty-three persons being present. Communion service followed the service. Miss Stella Moore sang a solo, "God Answers Prayer," accompanied by her harp. Rev. C. J. Coate preaches every Sunday at the place mentioned above. Sunday school at 2 p.m.; all are cordially invited to attend.

### Look for the Best

Talk happiness. The world is sad enough  
Without your woes. No path is wholly rough;  
Look for the places that are smooth and clear,  
And speak of those to rest the weary ear  
Of earth, so hurt by one continuous strain  
Of human discontent and grief and pain.  
Talk faith. The world is better off without  
Your uttered ignorance and morbid doubt,  
If ye have faith in God, or man, or self,  
Say so; if not, push back upon the shelf  
Of silence all your thoughts till faith shall come;  
No one will grieve because your lips are dumb.  
Talk health. The dreary, never-changing tale  
Of mortal maladies is worn and stale;  
You cannot charm or interest or please  
By harping on that minor chord, disease;  
Say you are well, and all is well with you,  
And God will hear your words and make them true.  
—Ella W. Wilcox.
